References External links Zune Website Category:Music player software Category:Windows media players Category:Windows-only softwareQ: create a dynamic form_tag from within a form_tag I'm building a Rails 3 application which displays data from one of our legacy applications (for which I have no source code). There are a few fields on the legacy data which are required to be passed in to the form_tag via the form_tag. Now I would like to do some form of validation on those data, before submitting, but the data is not contained within the form that calls the form_tag,
