tested it myself and it works. You may have to try the following: - In Windows Explorer, press Shift + F1 to open the “Open Windows PowerShell” command window. - Navigate to the “c:\Program Files (x86)\Adobe” directory. - Remove Adobe Audition CS5 x64 program. - Download the Adobe Audition CS5 x64 program (select the option named “Patch for 64-bit systems”). - Run the installer. Then try your above code.

Q: What is the most common term for "dinner" in Latin? I've read several attempts to determine the most common form of Latin 'dinner' by comparing the frequency of its use in dictionaries, but they all come up with highly dissimilar lists. Is there a clear, universally accepted, form for this word? If not, what do native speakers use and what do they think of it?

A: My impression is that native speakers use the genitive of the feminine singular article, which is usually

interpreted as a derivation from this:
