ListView not being populated in search results page - loadview I have a base class inheriting ListActivity and I am populating a listview which should display the results of a search. I want this search to be taken to the search results page instead of the search results page to have this exact listview. Based on many tutorials I followed, I have build a BaseSearchableActivity. To accomplish this, I have built a SearchableActivity class which extends BaseSearchableActivity public class SearchableActivity extends BaseSearchableActivity { @Override protected void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); setContentView(R.layout.activity\_search); // The name of this layout file. View rootView = (View) findViewById(R.id.rootView); // Get the adapter of the list and set the searchable object to its ListView // mSearchableListView = (ListView) rootView.findViewById(R.id.listView1); mSearchableListView.setAdapter( 3e33713323
