Entertainment: Summer of Love 60s in photos The Summer of Love remains a vivid memory, even though for many people its been a long time. It is still the biggest social change of the 20th Century, and it remains the largest event of the 1960s. Caption: Love spreads across the land. The Monterey Pop Festival of 1967 transformed pop music for ever. The Beatles and Jimi Hendrix were at the top of the bill, along with several other performers from the era.Q: Why can i use typeof() with the keyword \* in a JavaScript environment with Node.js? When I call 'app.use("/", (req, res, next) =>...'); Node.js, everything works as expected (meaning that the middleware function is fired). In my development environment, I can have something like: app.use(function \* () { console.log(typeof arguments[0]); // "function" console.log(arguments[0]); // an array console.log(typeof arguments[1]); // "function" console.log(arguments[1]); // an array console.log(typeof arguments[2]); // "function" console.log(arguments[2]); // undefined }); Why can I use typeof() with the keyword \* in a JavaScript environment with Node.js? Is it even supported? News Great news for remote orchardists! Remote pollination using drones is now possible. This is a big step forward for orchardists, particularly those who want to avoid purchasing fertilizers. The drone allows pollination without having to go near the apple orchard... Before actually planting your orchard, it is important to know where your trees will be located. The appropriate space between two trees can decrease foliage production. This can cause your trees to prematurely mature, resulting in decreased yields in the upcoming season. Ultimately, all plants grow in a specific ... The 2018 Fruit Blossom Festival took place May 2, 3, 6, and 7. In 2018, the citizens of Ohio loved the festival! To participate, many couples and single fathers and mothers got the "blossoms", if you will, involved and covered up. It was a lot of fun! ... Plants produce chlorophyll to perform photosynthesis. This green is just one of the many natural fertilizers that can be applied to plants. All plants need nourishment in order to grow and develop. There are many different ways to fertilize your plants. It is possible to use ... Happy Earth Day! What a great opportunity it was to have our local USDA recently host a bee festival at their offices. I believe this was the first time they had done this particular event. We feel it is very important that we invest in soil health. It is ... Like most of you, I was pretty excited when I found out that they were going to show up on our television screens. It was something different! I had a couple questions about this show right off the bat. How would the bees be educated? Would ... Apple blossom splashing with the first rain of the year! Apple and Peach trees are one of the easiest trees to prune, and they are one of the easiest fruits to harvest. I have spent the last several months pruning, harvesting, and keeping these trees healthy. I ... This is a presentation that I made for our K-12 science classes a few years ago. I was presenting the life cycle of a cherry tomato. I do feel that this is an appropriate plant to grow for our farm. In our native state of Ohio, there are ... I wanted to share the growing practices and different methods that are used to control our pests in our urban garden. All too often, what we find is that our soil has little nutrient content, which results
