August 21 2020. Recently, there were no changes on the computer, except for ordinary Microsoft updates. I have an Excel version for Office 365 chosen by default. Therefore, I do not know what advantages Excel for Office 365 you expect. If you want to go to Office 365 on Office 365 in the near future, please read this article: <https://www.microsoft.com/en-us/office/office-365-Office365-Transition.aspx> If you use Office 365 for desktop computers, you can go to Office 365 at any time. However, if you use Office 365 for jobs, you can save your subscriptions and access them via Office 365.
