Automatically mark your tasks as completed. Import your completed tasks from the iPhone application. Sync your tasks with the iPhone app. Wise Reminder: Wise Reminder is an application to alert you about important events in your life. It can send notifications to your iPhone, Android, Windows Phone, Mac, PC and Linux. Additional: Description Wise Reminder provides you with your own personal software assistant, designed to notify you about important events, tasks and appointments. It comes in handy for busy users who require a tool that can help them organize their daily tasks easier, in order to enhance their productivity and become more efficient in their work. The principle that Wise Reminder is based on is quite simple. The application does not bring anything new to the table, but it comes in handy for alerting users about daily routines, making it easy for them to organize a schedule. Along with its user-friendly interface, this feature makes it intuitive and suitable for beginners. Adding a new task is just a matter of a few clicks, as you just have to write a short description of the task, set the time and the date and configure the repeating mode. All the active reminders are neatly displayed within the main window, along with an accurate countdown timer for each item. The application runs silently in the system tray, without interrupting your work. When the time runs out for an entry, a popup window is displayed, allowing you to deactivate the alarm or keep it in 'snooze' mode, which sets the program to remind you again about it in a certain amount of minutes. Although simple in its essence, Wise Rem
