NeoBook Icons With Key

NeoBook Icons program allows you to change the default icons for the most important sections of NeoBook (see HELP icon in the toolbar above). The icons will be assigned to the user's documents, plug-ins, languages, backups and runtime selections. The program will let you change default icons of the following NeoBook sections: document icon, document icon backup, document icon runtime and plug-in icon. NeoBook Icons features:

1. Change Default Icons: if you have a large collection of icons, you will need to assign new icons to all the available NeoBook sections. Download NeoBook Icons to change all icons from 1st icon to 128th icon in the icon collection and save the newly assigned icons in the same order.
2. Change Default Icons Order: allow you to change the default icon order for a particular NeoBook section.
3. Icon Manager: provides you with a tool to change the assigned icons for a particular NeoBook section by clicking on the "Icon Manager" button on the right side of the assigned icons list.
4. Export XML: export the assigned icons to XML file that can be used in the future.
5. Icon Allocation: allow you to remove the selected icons and assign them to another NeoBook section or re-assign them to the selected NeoBook section.
6. Copy and Paste: add a selected icon to the icon collection and paste it to another NeoBook section. You can also add one of the icons from a specific NeoBook section to the icon collection and paste it to a selected icon.
7. Icon Help: shows you the available NeoBook sections. Also, it can be used to display or hide the "Icon Manager".
8. Clear Icons: remove all the icons from the assigned list.
9. Icon Allocation for Documents and Plug-Ins: click on the button to select the NeoBook sections for which you want to change the default icons.
10. Icon Allocation for Languages: click on the button to select the NeoBook sections for which you want to change the default icons.
11. Icon Allocation for Backups: click on the button to select the NeoBook sections for which you want to change the default icons.
12. Icon Allocation for Runtime: click on the button to select the NeoBook sections for which you want to change the default icons.
13. Icon Help: provides you with the information of the current NeoBook sections. You can

What's New In?

NeoBook Icons removes NeoBook default icons and replaces them with custom ones. The program comes with handy tools that allow you to quickly select the icons you want to change, preview the result and apply your changes as needed. Do you find a NeoBook icon that you want to use but can't because of one or more of the following problems: An icon is not available? For example, the icon is lost in the game. An icon has too few pixels? An icon is too big? An icon is an inappropriate size for the icon theme? An icon does not have the font you want? NeoBook Icons makes it easy to replace NeoBook's default icons with custom ones. It allows you to do this with one click: - You can change the default NeoBook's icons for all NeoBook's documents, plug-ins, languages, backup and runtime sections at once. - The program has a handy preview function which enables you to visually check how the changes will look before you apply them. - NeoBook Icons supports drag and drop. You can select the icon you want, drop it in the destination window and run the program immediately. You can remove a NeoBook icon using drag and drop. If you find that you need to replace NeoBook icons only for certain categories of files, you can define custom icon sets and select which ones should be applied for which files. All NeoBook Icons software tools are designed to work in conjunction with each other. Java Icons Manager is a handy and reliable application designed to provide you with a way to change Java's default icons. The program includes handy tools that allow you to quickly select the icons you want to change, preview the result and apply your changes as needed. Do you find a Java icon that you want to use but can't because of one or more of the following problems: An icon is not available? For example, the icon is lost in the game. An icon has too few pixels? An icon is too big? An icon is an inappropriate size for the icon theme? An icon does not have the font you want? Java Icons Manager makes it easy to replace Java's default icons with custom ones. It allows you to do this with one click: - You can change the default Java's icons for all Java's elements at once. - The program has a handy preview function which enables you to visually check how the changes

System Requirements:

Thanks for playing! This is a work-in-progress build, so please send any feedback to: GBlog@11bitstudios.com UPDATE: Version 0.6 is released! I'll start off with a little background info on me, and why I made this game in the first place. I am a self-taught artist (that I am proud of) from the US who currently studies game design at the Art Institute of California - San Jose. It's a great program for designers of all kinds. It's not easy
