Super Mario 64 Character Mods Top:62 de skin de super mario64 para android un link (jefersontt18 Modder Warliy has released another mod which adds a new character into the Super Mario 64 world, Klonoa. Klonoa is a stealth game and his goal is to cause chaos, not just be Mario's monkey sidekick. Klonoa is an antagonist in the game so it's up to the player to cause him harm. Klonoa will cause damage to enemies around him, but to cause true chaos, the player must follow his footprints, the footprints are the clues that will lead them to the real Klonoa. This is a fun addition to the SM64 galaxy, and if you don't want to read my new Klonoa Character mod in this post, that's okay too. Enjoy!
