
Phantasy Calradia Troop Tree Fix

This mod adds a troop tree for female Orcs from the swadian faction. For soldiers of the Khazak Horde faction, see the version of the combat tree by theÂ . Permission to replace the default troop tree in Phantasy Calradia with a custom tree from Khazak Horde. All westerosi factions have identical troop trees with a handful of. Mythical Mount & Blade Troop Tree. Troop Tree. Troop Tree 2. Troop Trees.1. Field of the Invention The present invention relates to an improvement in an apparatus for controlling the pressure of refrigerant gas in a hermetically sealed compressor, more particularly, in an oil-free refrigerant compressor having a fixed delivery pressure control valve such as a differential pressure control valve. 2. Description of the Prior Art The oil-free refrigerant compressors have been widely used in refrigerant compressors because of the prevention of cavitation, prevention of liquid refrigerant mixture with lubricant in a piston stroke and reduction of friction due to the liquid refrigerant mixture. However, in the oil-free refrigerant compressor, there is a problem that the control of delivery pressure becomes difficult and the refrigerant compressed at the delivery pressure cannot be supplied into a condenser or an evaporator properly. Accordingly, the pressure control valve is used for the control of the delivery pressure of the oil-free refrigerant compressor, as proposed in the prior art. FIG. 4 shows one example of such a prior art pressure control valve disclosed in U.S. Pat. No. 3,885,122. The illustrated pressure control valve includes a valve housing 10, a diaphragm 12 arranged in the valve housing 10 for controlling the pressure of the refrigerant gas in a delivery passage 14, a valve seat 16 on the diaphragm 12 and a valve member 18 moved to open the valve seat 16 or close the valve seat 16 against the force of a spring 20. The valve member 18 is biased to move toward the valve seat 16 by the pressure of the refrigerant gas, whereby the refrigerant gas introduced into the delivery passage 14 is discharged from the delivery passage 14 through a discharge port 22. A spring chamber 24 around the valve member 18 is provided between the spring 20 and the diaphragm 12, with the refrigerant gas in the spring chamber 24 feeding the pressure of the refrigerant gas applied to the spring 20 and generating a difference between the pressures applied to the valve seat 16 through the diaph
